CRWD Network Ecosystem and CONDA Support

The Role of CONDA

Investment Offer

Smart Contracts

Identification / KYC

undraising

With over 100 companies financed, we provide support in setting up a standardized investment offer.

By building up the CRWD

Network, we have
implemented an ecosystem
of smart contracts which are
adjusted to the
requirements for security
ICOs.

We support the company in setting up and managing the KYC (Know-Your-Customer) process.

CONDA has a community of more than 30.000 users which have already financed more than MIO 22 Euros.

THANK YOU!
